Skills

HTML/CSS	JavaScript	Ruby	Ruby on Rails	AJAX	JQuery
Postgres	Git	Heroku	SQLite	MVC	APIs
React	Debugging	Databases	Responsive Design	Bootstrap	GitHub

Experience

General Assembly at Bitmaker, Toronto, ON – 2017

Succeeded in completing a Web Development Immersive program in which I developed several web applications using Rails and JavaScript. Mastered Object Oriented Programming, JavaScript, Ruby, version control, and test-driven development.

Projects:

- *Kaizen* – kai-zen.herokuapp.com – Programmed a Full-stack web application with five programmers that is a platform to book mentors in your local area that will come teach various artistic or technical skills in your home. Site utilizes AJAX to determine availability, Google Maps API to locate mentors geographically, and the Paperclip gem to upload user photos. Our database is Postgres and separates user types utilizing polymorphic associations for booking services. Deployed on Heroku.
- *Seat Yourself* – github.com/KaraCapozzi/seatyoursself – Developed a full-stack Ruby on Rails web application for making reservations with restaurants. Refined database validations to streamline the scheduling process. MVC architecture was utilized to enhance the front-end and back-end processes.
- *Photogur* – github.com/KaraCapozzi/photogur – Pair programmed a photography responsive website using HTML, CSS and JavaScript to beautifully display images.

ESL Teacher, 2009 – 2017

- Taught refugees skills to support them in adapting as newcomers.
- Organized a GoFundMe fundraiser to build home libraries that was featured on the news.

Teacher, 2006 – 2008

- Instructed a class of diverse students at a high poverty school, with the highest growth increase out of 82 elementary schools achieved on standardized tests in my first year.

Projects

- *Mover* – github.com/karacapozzi/mover – Developing a Rails app with two other programmers that is a peer-to-peer moving service.
- *Blog* – buffalogirlgang.herokuapp.com – Built a blog using Rails and the MailChimp API to allow users to subscribe to a newsletter.

Professional Development

- Built an app login page using Android Studio at TD Build in Toronto.
- Created an iPhone app InVision prototype at a UX training.
- Women Who Code Buffalo Director applicant.
- People to People International – Delegation leader for four European travel programs for American students to gain cultural awareness.

Education

General Assembly

Web Development Immersive, 2017

D'Youville College

Master of Education, 2011

GPA: 4.0

State University Of New York At Fredonia

Bachelor of Science in Education, 2006

Concentration: Mathematics
